PROFESSIONAL SUMMARY

HubSpot CMS developer with **2+ years** of experience delivering **50+ production websites** for B2B and SaaS clients across HubSpot, WordPress, and modern JavaScript stacks. Expert in **HubSpot CMS, HubL, HubDB, REST API** integrations, and **CRM-connected** web systems, with full-stack skills in **JavaScript, TypeScript, React, Next.js, and Python**. Client-facing engineer skilled in requirements gathering, technical consultation, and cross-functional delivery — case studies at portfolio-kappa-gray-11.vercel.app.

PROFESSIONAL EXPERIENCE

•Palmspire Technology

Aug 2024 – Present

HubSpot CMS Developer

Dehradun, India

- Delivered **50+ production websites and landing pages** using **HubSpot CMS, HubL, WordPress (Elementor), Next.js, JavaScript, and TypeScript**; owned scoping, development, and launch.
- Built **custom HubSpot modules**, dynamic templates, and **HubDB-driven** platforms for events, resources, blogs, tours, and directory content — enabling marketing teams to manage content without developer support.
- Implemented **REST API integrations, HubSpot CRM** workflows, membership/login flows, custom forms, and third-party connectors for scalable CMS architectures.
- Shipped responsive, **SEO-optimized, WCAG-aware** sites; collaborated directly with clients, designers, and project managers on requirements and delivery.
- Selected work: HubSpot Experts Tours, Nemko Events, GrowFlow, FLX Networks, DXD Capital, Entelligence — full case studies on portfolio.

•OpenWeaver

Aug 2023 – Sep 2023

AI Engineering Intern

Remote

- Built NLP and computer vision prototypes for sentiment analysis, disease prediction, and traffic monitoring using **Python, TensorFlow, and PyTorch**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, HubL, SQL | **Frameworks:** React, Next.js, Flask, TensorFlow, PyTorch, OpenCV, Scikit-learn, NumPy, Pandas

CMS & Platforms: HubSpot CMS, HubDB, HubSpot CRM, WordPress, Elementor, Custom Modules

APIs & Web: REST APIs, CRM Integrations, Workflow Automation, Membership Systems, SEO, Web Accessibility

Databases & Tools: MySQL, SQL Server, Git, GitHub, VS Code, Postman, Jupyter Notebook, Vercel, Render

PROJECTS

•Nemko Events Platform

2024 – 2025

HubSpot CMS, HubL, HubDB | Client project — HubDB-powered events platform

Live

- Delivered HubDB-driven event listing and detail pages with reusable HubSpot modules; structured content models for marketing teams to manage events and registrations independently.

•Self-Driving Car Steering Prediction

May 2025 – Present

TensorFlow, Keras, Flask, OpenCV | CNN computer vision pipeline

- Trained a **CNN** on road-image datasets to predict steering angles; implemented preprocessing, augmentation, and evaluation pipelines in **TensorFlow/Keras**.
- Built a **Flask** web app with **OpenCV** frame extraction, image/video upload support, and cloud deployment for interactive inference demos.

•Credit Card Fraud Detection

Feb 2024 – Jun 2024

Python, Scikit-learn, Pandas | Imbalanced classification pipeline

- Engineered features and trained **Logistic Regression** and **Random Forest** models on imbalanced data with precision-recall evaluation and feature-importance analysis for fraud-risk decisions.

EDUCATION & ACHIEVEMENTS

•Dev Bhoomi Institute of Technology, Dehradun

2024

B.Tech, Computer Science & Engineering

CGPA: 7.26/10

•HackerRank: Golden Badge in Java and Python.

2023
